3d Design
& Digital Worlding

Hi! I'm Alex, a 3d artist with 5 years of experience working with US & EU clients. I studied Arts & Design at Escola Massana in Barcelona, where I'm based.

My work is comprised of 3d illustration, digital spatial design and interactive projects. We can work together to give your project an attuned visual environment that helps it thrive.

I've had the pleasure of working with [ilovecreatives](#), [Punodostres](#), [Guillermo Santomà](#), and [Ricardo Bofill Taller d'Arquitectura](#), among others.

ilovecreatives Virtual World

Digital worlds for ilovecreatives.
Backgrounds for interactive
edutainment web applications.

Produced by Punodostres
In collaboration with Sara Álvarez

3d Design
& Digital Worlding

Spatial design for ilovecreatives' About Us video.

3d sets for ilovecreatives & Punodostres

Spatial design for Punodostres' Canva Pro advertisement.

In collaboration with Sara Álvarez

3d Blender Course

Digital edutainment course commissioned and hosted by ilovecreatives. In it, I teach my process for creating a 3d artwork from scratch, while describing the tools and processes I use.

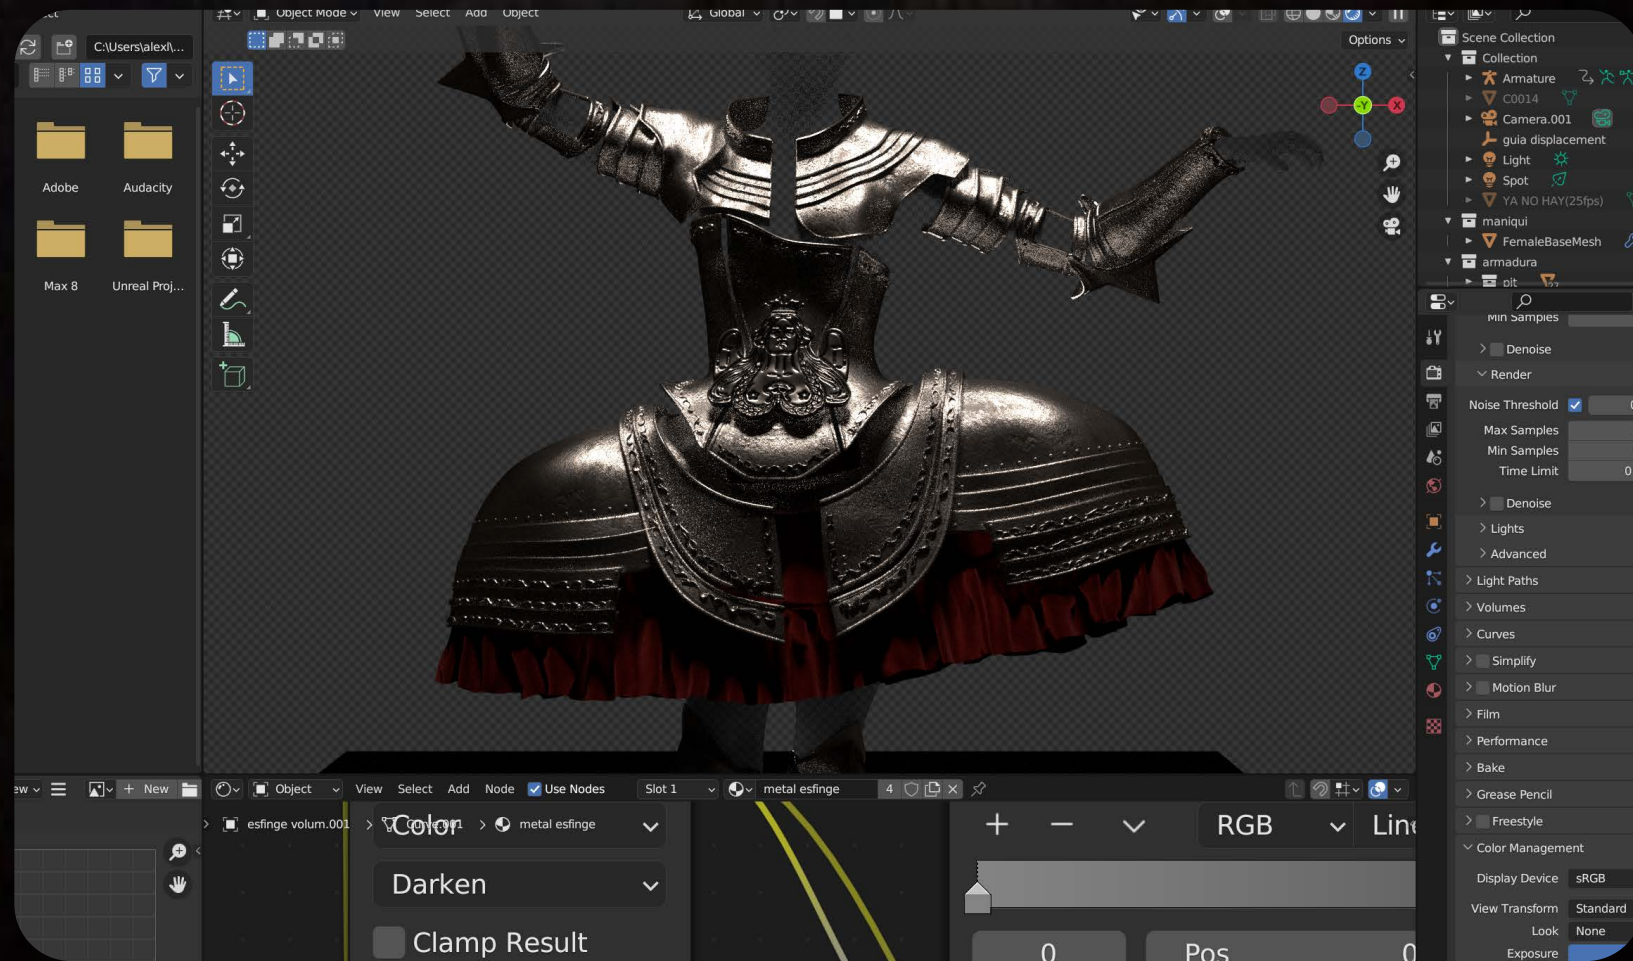

Final Fantasy Tactics

Final Fantasy Tactics is a short videogame-essay that explores the specificities of this procedural language to mobilize a narrative on mutuality, interconnectedness, play, emergence, and participation.

Vfx Armor for Ela Rea

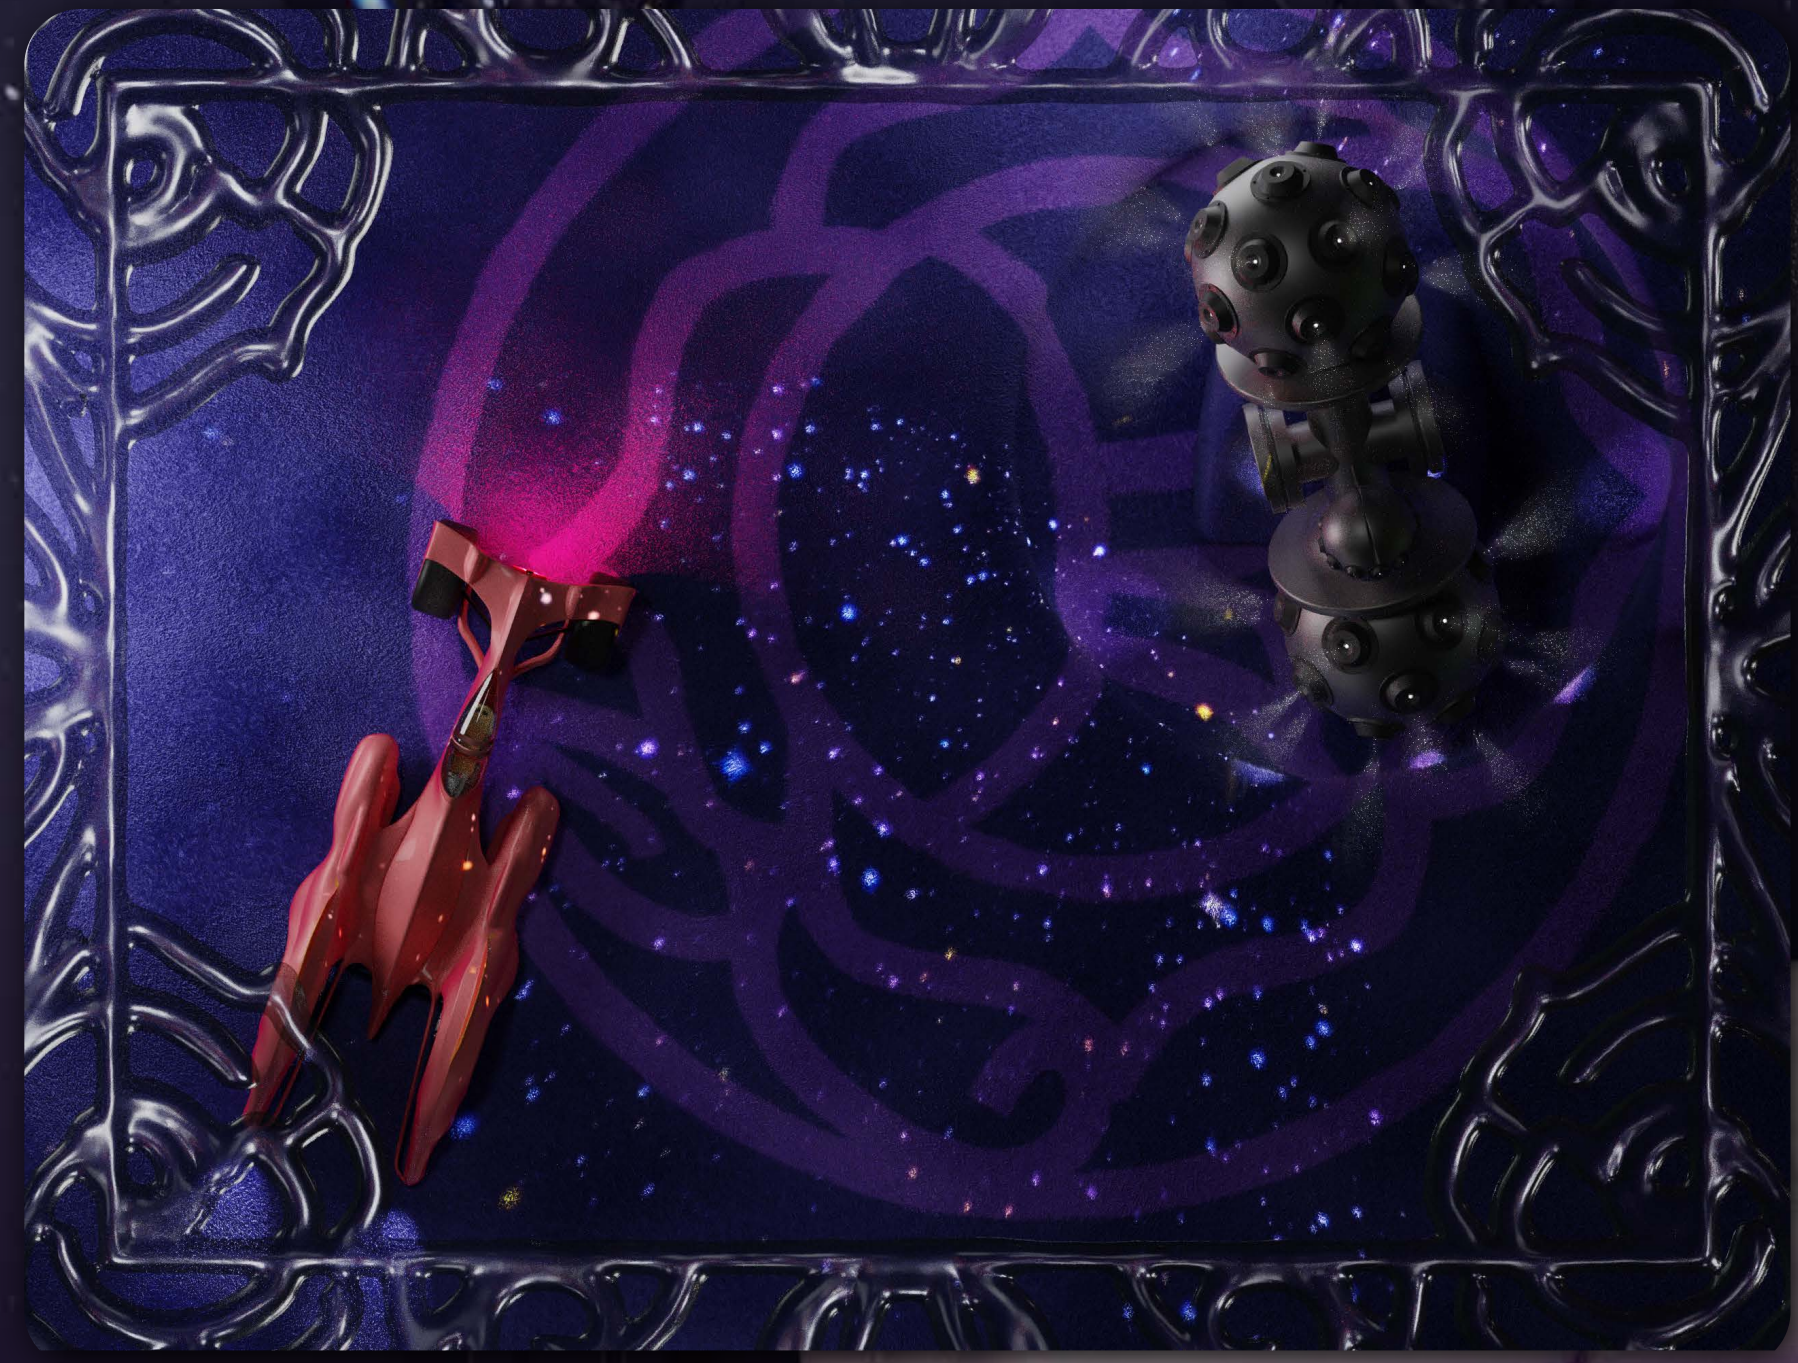

Modeling, materials, lighting, rigging, animating and compositing for Ela Rea's music video for her debut album. Process video.

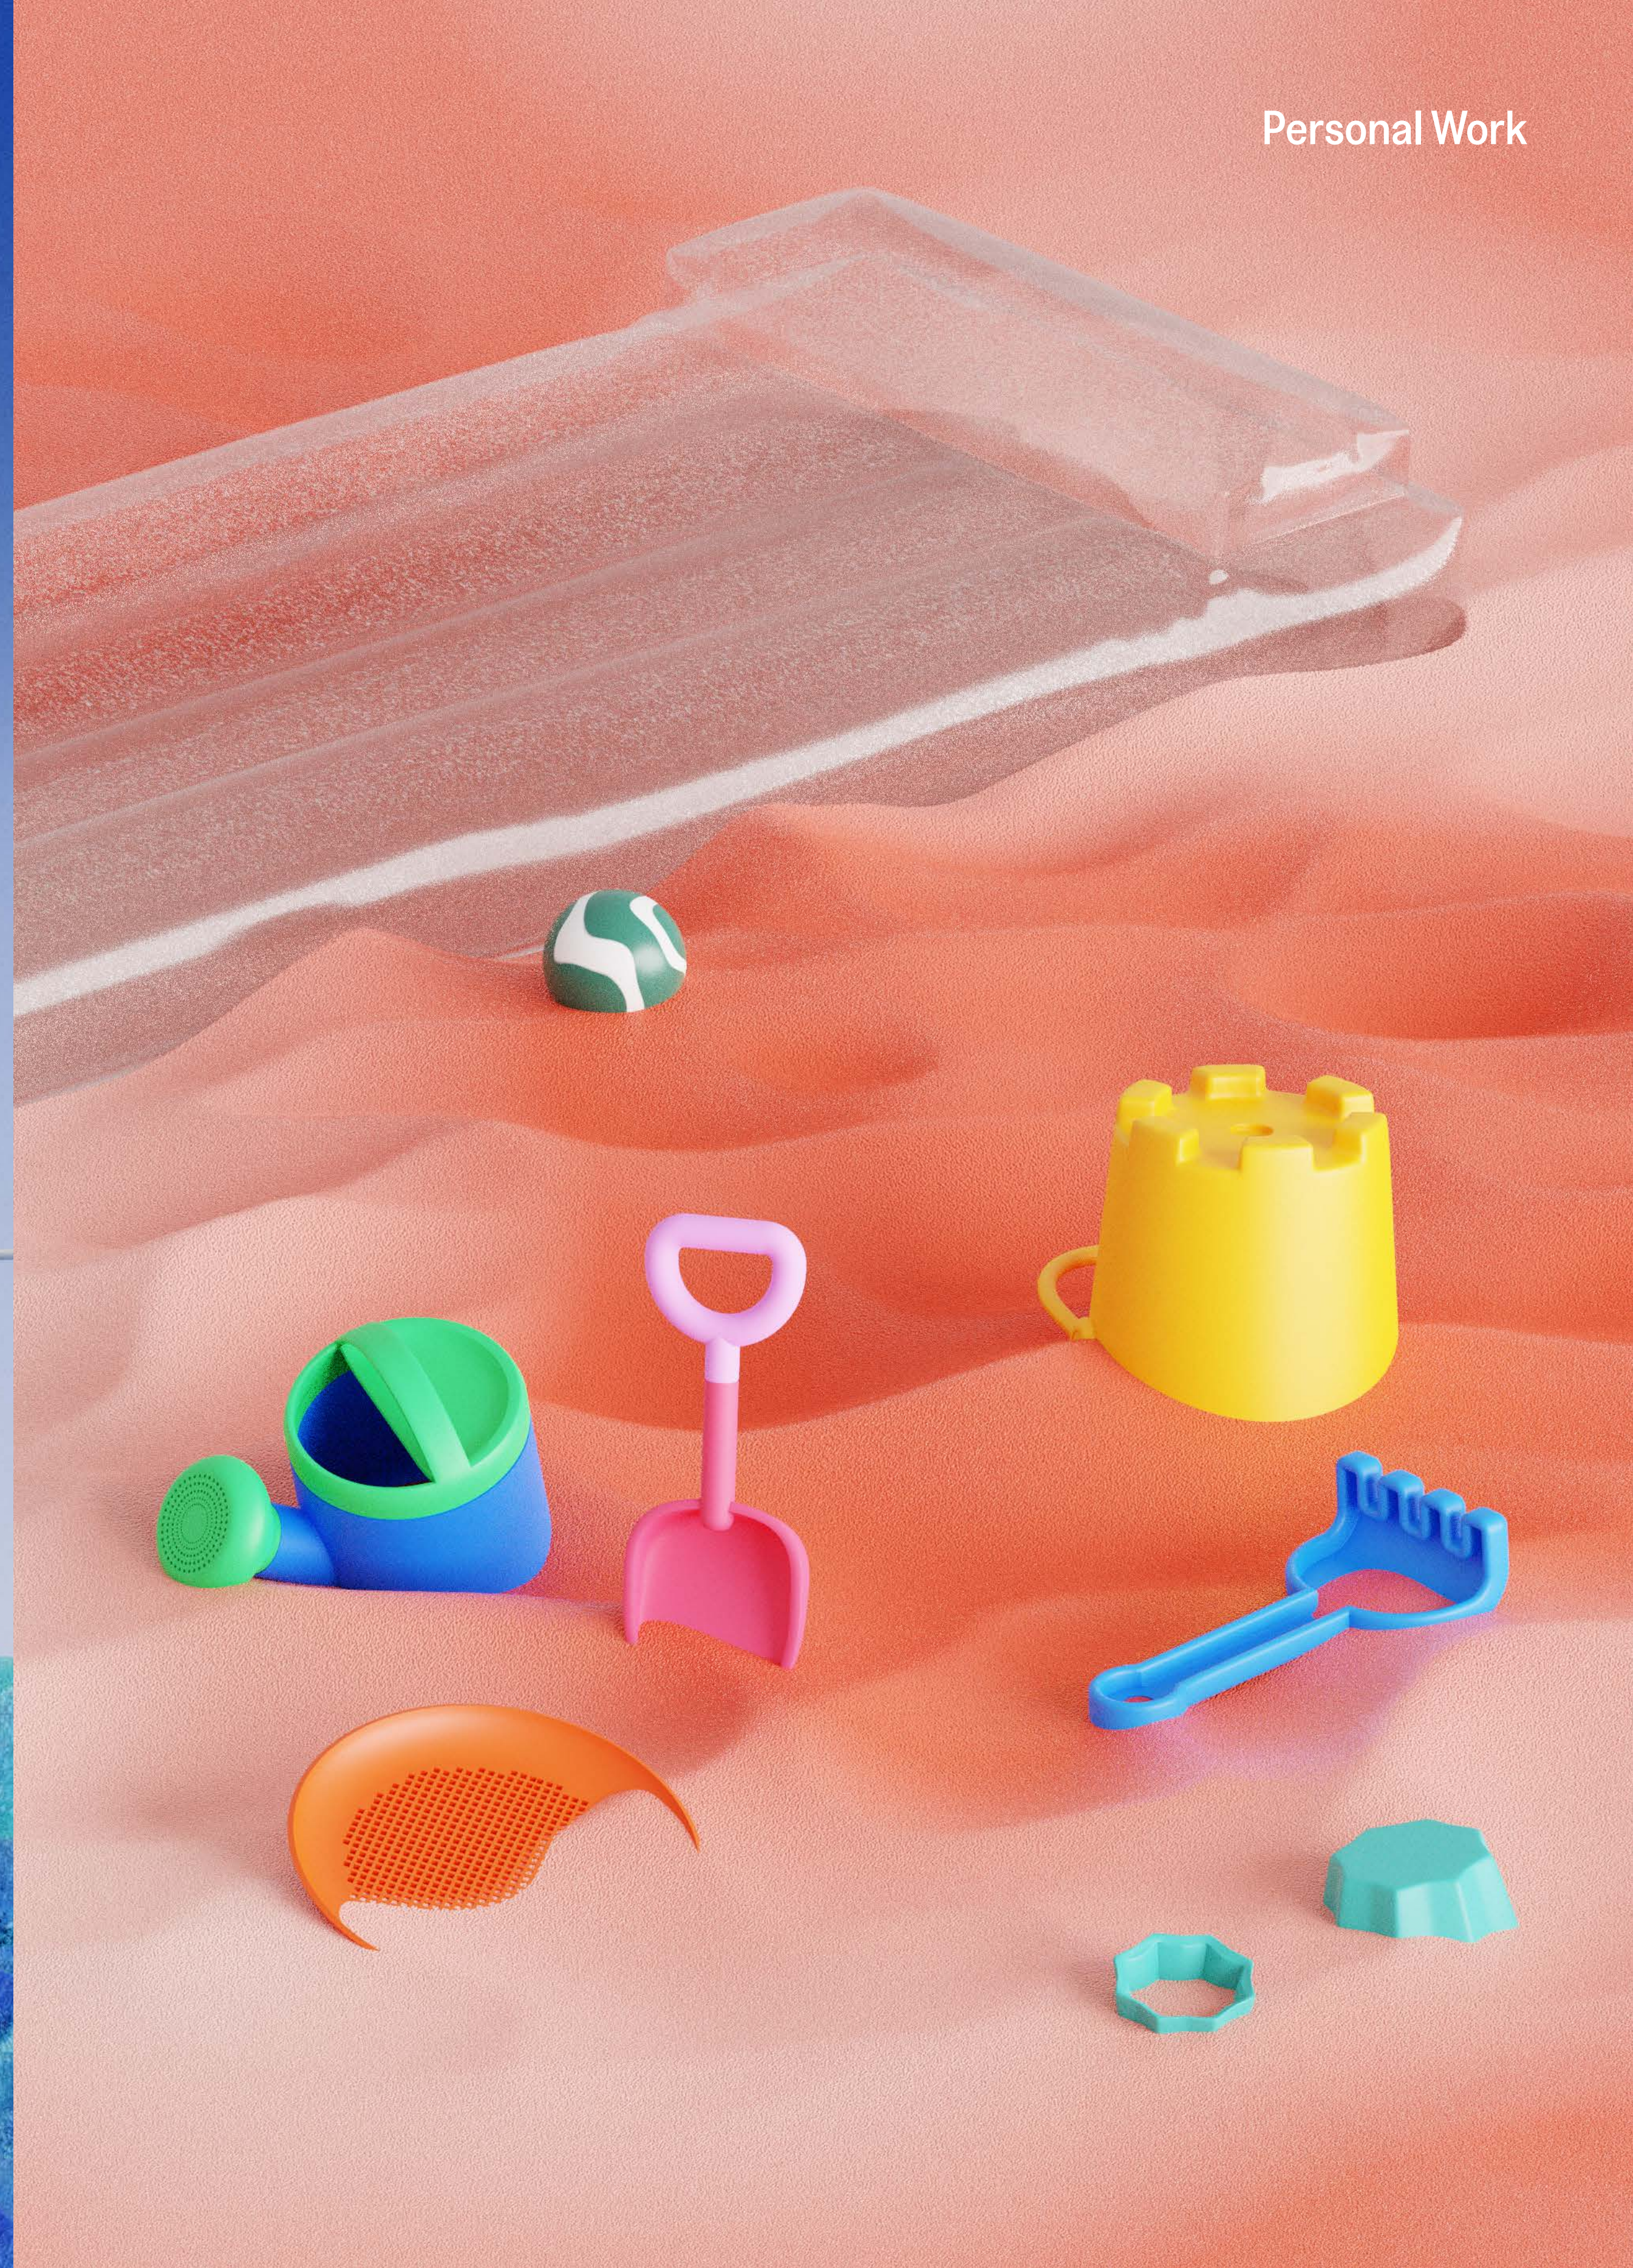

Armor design by [@bbespinos](#)

Personal Work

Shape, color and composition explorations.

Thank you for taking your time through this sample of my work. I'm open for commissions, let's talk and see how we can tend to your project's specific needs.
